

Dallas/Fort Worth Chapter

ISCEBS

January 14, 2021

**Webinar:
Recent Trends in Medication Fraud,
Waste, and Abuse and How Employers
Can Address within the Plan**

Note: Due to COVID-19 this program is only being offered via webinar.

Please join the Dallas/Ft. Worth Chapter on Thursday, January 14th for our webinar "Recent Trends in Medication Fraud, Waste, and Abuse and How Employers Can Address within the Plan".

Imagine being prescribed a high-cost medication by a doctor you have never met and who has never reviewed your medical records. What if one of your employees receives a call for a free COVID test kit, which is a scam to capture their social security numbers? Sounds a bit far-fetched, right? It is not. Everyday bad acting companies, doctors, and pharmacies invent and reinvent ways to take advantage of people and benefit plans. The good news is that you can do something about it with access to the right knowledge and data.

In this one-hour session, our speakers, Rebekah Gregg and Jennifer Warren, will educate attendees on the most relevant trends in pharmaceutical FWA that human resource leaders need to be aware of today. These insights are based on decades of pharmacy experience and informed by FWA prevention engagements on behalf of some of the US's largest companies. A portion of the discussion will focus on emerging schemes related to the COVID pandemic. Most importantly – the session will empower attendees with proven strategies employers can implement to protect their benefit plans and their employees.

DATE: Thursday, January 14, 2021

TIME: 12:00 - 1:00 pm

LOCATION:

COST: FREE

SPEAKERS

Rebekah Gregg
Senior Vice President, Product and Marketing
PSG

Rebekah Gregg has 21 years in technology and marketing, with the last 14 specializing in healthcare. For PSG, Rebekah is responsible for product design and strategy of PSG's drug cost management services and solutions. She focuses on ensuring PSG innovates to deliver high-value solutions that continually meet our clients' needs. Before joining PSG, Rebekah served as a Product Marketing Manager for Change Healthcare, supporting retail pharmacy, pharmacy benefits, and pharmaceutical markets. She also held various roles at Solaris Healthcare with an emphasis on operations and technology. Rebekah earned a bachelor's at the University of North Texas.

Jennifer Warren, CPC, CFE, CPhT
Product Manager
PSG

Jennifer Warren has more than ten years of analytical, investigative, and management experience that encompasses medical and pharmacy benefits. Before joining PSG, Jennifer was a Pharmacy Fraud and Analytics Subject Matter Expert at Cigna. She served as a pharmacy subject matter expert, including specialized analytics, to support how medical diagnosis related to pharmacy activity. Additionally, she worked with law enforcement, handling pharmacy fraud allegations, and leading audits on pharmacy data to identify fraudulent and abusive billing practices. Before Cigna, Jennifer was with Optum as Advanced Analytics Manager and later as Medicare FWA Clinical Investigations Manager. Previously, Jennifer spent three years as a healthcare fraud investigator in the United States Attorney's Office, Middle District of Tennessee, and four years with AdvanceMed Corporation. She worked extensively to identify, analyze, and investigate Medicare fraud. In addition to her clinical, analytical, and investigative skills, Jennifer brings ten years of hands-on retail pharmacy experience, having served as a Certified Pharmacy Technician (CPhT) and store manager. She also is a Certified Fraud Examiner (CFE) and Certified Professional Coder (CPC). Jennifer earned a Bachelor of Science and a Master of Arts in Corporate Communications from Austin Peay State University.
